Client engagement brief

FICTIONAL SAMPLE - An unsigned scope summary for an invented client.

Client	Acorn Studio (fictional)
Reference	DEMO-ENG-001 / Draft 1
Status	Unsigned - pending human review

01 / Proposed work

Organize a small client workspace, collect the documents listed below, and record an accountable review decision. No services have actually been agreed or delivered.

02 / Document checklist

Request the client contact record, a written scope acknowledgment, and a current information-handling policy. Keep each source linked to its request so a reviewer can inspect it.

03 / Review boundary

This brief deliberately has no signature or acceptance date. A reviewer should decide whether a draft is sufficient for the selected check and record any missing items. There is no claim of legal compliance.

TRY THIS IN THE WORKSPACE

Open the sample engagement review, read this source, then try recording a decision or requesting changes. The app should retain the submitted revision and your explanation.

This is invented demonstration content. It is not a signed agreement, verified evidence, a legal requirement or an adopted policy.
